About me

Like you know now, my name is Natacha =) If I should introduce myself a little bit more, so am I a happy girl and I like to know the same things about you, as you know about me. In my spare time, I go to horse riding 2 - 3 times at week. Monday and Wednesday I spent some time with my best friend, Camilla. We go to weight training together and use a lot of time in the city. I also spent time with my other friends. In the weekends we go to parties and maybe we see some movies.

I will tell you some facts about me, what I like and whatever. If I'm not in the city and to weight training, I am home and hear music. I like music, because it's very relaxing. The music is also a good thing when I do my homework, it helps me concentrate.

I live with my mom, dad and brother in an okay house. We are a very happy family, and my dad loves to make fun during evening dinner.
