

Profile

My name is Rory Wilson I am 16 years old and am an exchange student from Australia, living in Denmark until January.

In Australia I live in a small house in town with my family, 15 Linton Park Drive Barham NSW Australia, and while I am in Denmark I live on a small farm with my host family, Karup Denmark.

I really like sport and play that as much as possible. In Australia I play Australian Football as well as cricket, basketball, swimming and running. I have started playing soccer in Denmark but would like to try handball and some other sports.

I don't like cold and rainy weather because you can't go outside and do anything. In Australia we aren't used to that so sometimes I get bored here when it rains a lot.

In Australia my family is made up of my little brother who is 14 and my little sister who is 12, as well as my Mum and Dad, who are both teachers.

The family in Denmark I am staying with have a younger brother who is 14 and a brother my age who is in the USA on exchange too. Their Mum works in women's fashion and their Dad is a major in the Danish Air force.

In Australia my family has lots of pets. We have 2 dogs, 2 cats, 1 rabbit, 3 guinea pigs and a cockatoo and a galah. No, we do not have a pet kangaroo. The family I am staying with in Denmark have 2 cats, 5 horses and a dog.

When I return home to Australia I would like to finish school and then go to university to get a job in sport. I would also like to travel a lot when I am older and maybe go back to Denmark one day.
